For Nikos

You changed my view of the world!
You inspired me deeply with your truths,
your clear gaze, your untamed soul.
You stood beyond human boundaries,
beyond any limits of space and time!
You walked upon the earth and flew at the very same time!

For George

An allegro spirit — unfettered, true, untamed, authentic!
A celebration of life and an example of genuine friendship! How many times I imagined the two of you together on that dreamlike shore of Kalogria!

I was blessed to hear stories about you from people who still remembered you, who looked upon you with awe, astonishment, curiosity and admiration for that sense of the "extraordinary" they saw before them!

This bond between you remains truly remarkable and inexplicable even after so many decades! One of life's mysteries!

Thank you for all that you brought into the life of the great philosopher who walked alongside you!
